Comment #	Section	Page #	Line #	Comment (Include rationale for comment)	Suggested Change
1	2.2	8	436	The reference to section 6.1.2.1 in SP 800-63B 2pd does not exist. It did exist in the previous versions of 800-63B with the title "Binding of an Additional Authenticator at Existing AAL". But "Binding an Additional Authenticator" is Section 4.1.2.1 in the second public draft.	Change "All derived PIV credentials SHALL be issued in accordance with [SP800-63B] Sec. 6.1.2.1." to "All derived PIV credentials SHALL be issued in accordance with [SP800-63B] Sec. 4.1.2.1."
2	2.2	8	432	I believe the reference to "PIV-AUTH" should be "PKI-AUTH" because the term "PIV-AUTH" does not occur in FIPS 201-3. The Glossary of FIPS 201-3 contains the term "PKI-PIV Authentication (PKI-AUTH)" on page 101.	Change "the cardholder to authenticate using their PIV Card with the PIV-AUTH authentication" to "the cardholder to authenticate using their PIV Card with the PKI-AUTH authentication".
3	2.2.1	9	466	I believe the reference to "PIV-AUTH" should be "PKI-AUTH" because the term "PIV-AUTH" does not occur in FIPS 201-3. The Glossary of FIPS 201-3 contains the term "PKI-PIV Authentication (PKI-AUTH)" on page 101.	Change "The cardholder SHALL be authenticated using the PIV-AUTH authentication mechanism specified in [FIPS201]." to "The cardholder SHALL be authenticated using the PKI-AUTH authentication mechanism specified in [FIPS201]."
